

C Music TV Launches on Melita in Malta

The Malta Independent on Line

April 20th 2010

Melita unveiled its new television channel line-up this week, with a total number of channels increasing to 140 and another 10 HD channels will be launched soon, bringing the total available TV channels on the Melita platform to 150 channels – almost triple the number of channels offered by other local pay TV operators.

As of 15 April, Melita premiered a total of 42 new and exclusive channels across the existing three television packages. Each subscriber now benefits from a number of additional channels, depending on the particular package that he or she is subscribed to. The channels range from lifestyle to kids, sport, variety, and knowledge and are available to subscribers at no extra cost. The set top box was automatically updated to include these new channels. If the set top box was switched off at the time of update, the system will prompt the user to download new software on the first time the box is switched on.

The new line-up includes an unparalleled total of 140 channels on the XL package including a host of other highly popular offerings like **C Music TV**, Jimmy, Lei, Leonardo, Alice, Movies4Men, Cielo, Marco Polo, Dove TV, Horse and Country TV, High Life TV, Art, Net Geo Adventure, Baby TV, Trace Tropical, BVN Europa, RTR Planeta, ShowTurk, Dubai One, LBC Europe, Smart Live Casino and Nuvolari among many others.
